LiveShot Hub

LIVESHOT-HUB

9500-0515

£380.00

While the LiveShot Video IP Codec is designed to operate well when connected to the Internet via one or two 4G modems, a 4G network is not always available. When faced with a challenging 3G-only environment, the new LiveShot Hub will provide connections for up to four USB devices. The Hub provides additional 3G bandwidth and, because of LiveShot's advanced dynamic aggregation capabilities, the Hub also provides modem redundancy – as the camera moves, LiveShot will continuously adjust the amount of contribution from each modem

LiveShot Connect Modem

LIVESHOT-CM

9500-0535

£430.00

• Comrex Connect Modem with LiveShot Portable Mounting Bracket

LiveShot Portable Pouch

LIVESHOT-PP
